INNOVATION & LEADERSHIP

Karin Burns Joins Build It Green

Our new Executive Director takes the reins with a vision to expand BIG's programs and partnerships.

Media Buzz

BIG's green building expertise is showcased in prominent national media outlets.

Multifamily ZNE

The California Energy Commission awards BIG a research grant to overcome key challenges to developing zero net energy (ZNE) multifamily buildings.

GreenPoint Rated V7

Version 7.0 of GreenPoint Rated is released, pushing the edge of green home design and defining pathways to ZNE and low-carbon homes.

Oakland EcoBlock

BIG partners with UC Berkeley on the Oakland EcoBlock Project, a deep energy retrofit of an entire city block!

Local Policy

BIG helps Northern California local governments develop better building codes and ordinances.

GREEN REAL ESTATE

Driving a Virtuous Cycle

In 2016 BIG continue to follow its innovative real estate strategy to create a "virtuous cycle" that will transform the market for green home improvements. With help from our network of real estate professionals, we're engaging homebuyers and developing new technical tools.

Green Building Registry conceived by BIG to capture green home data

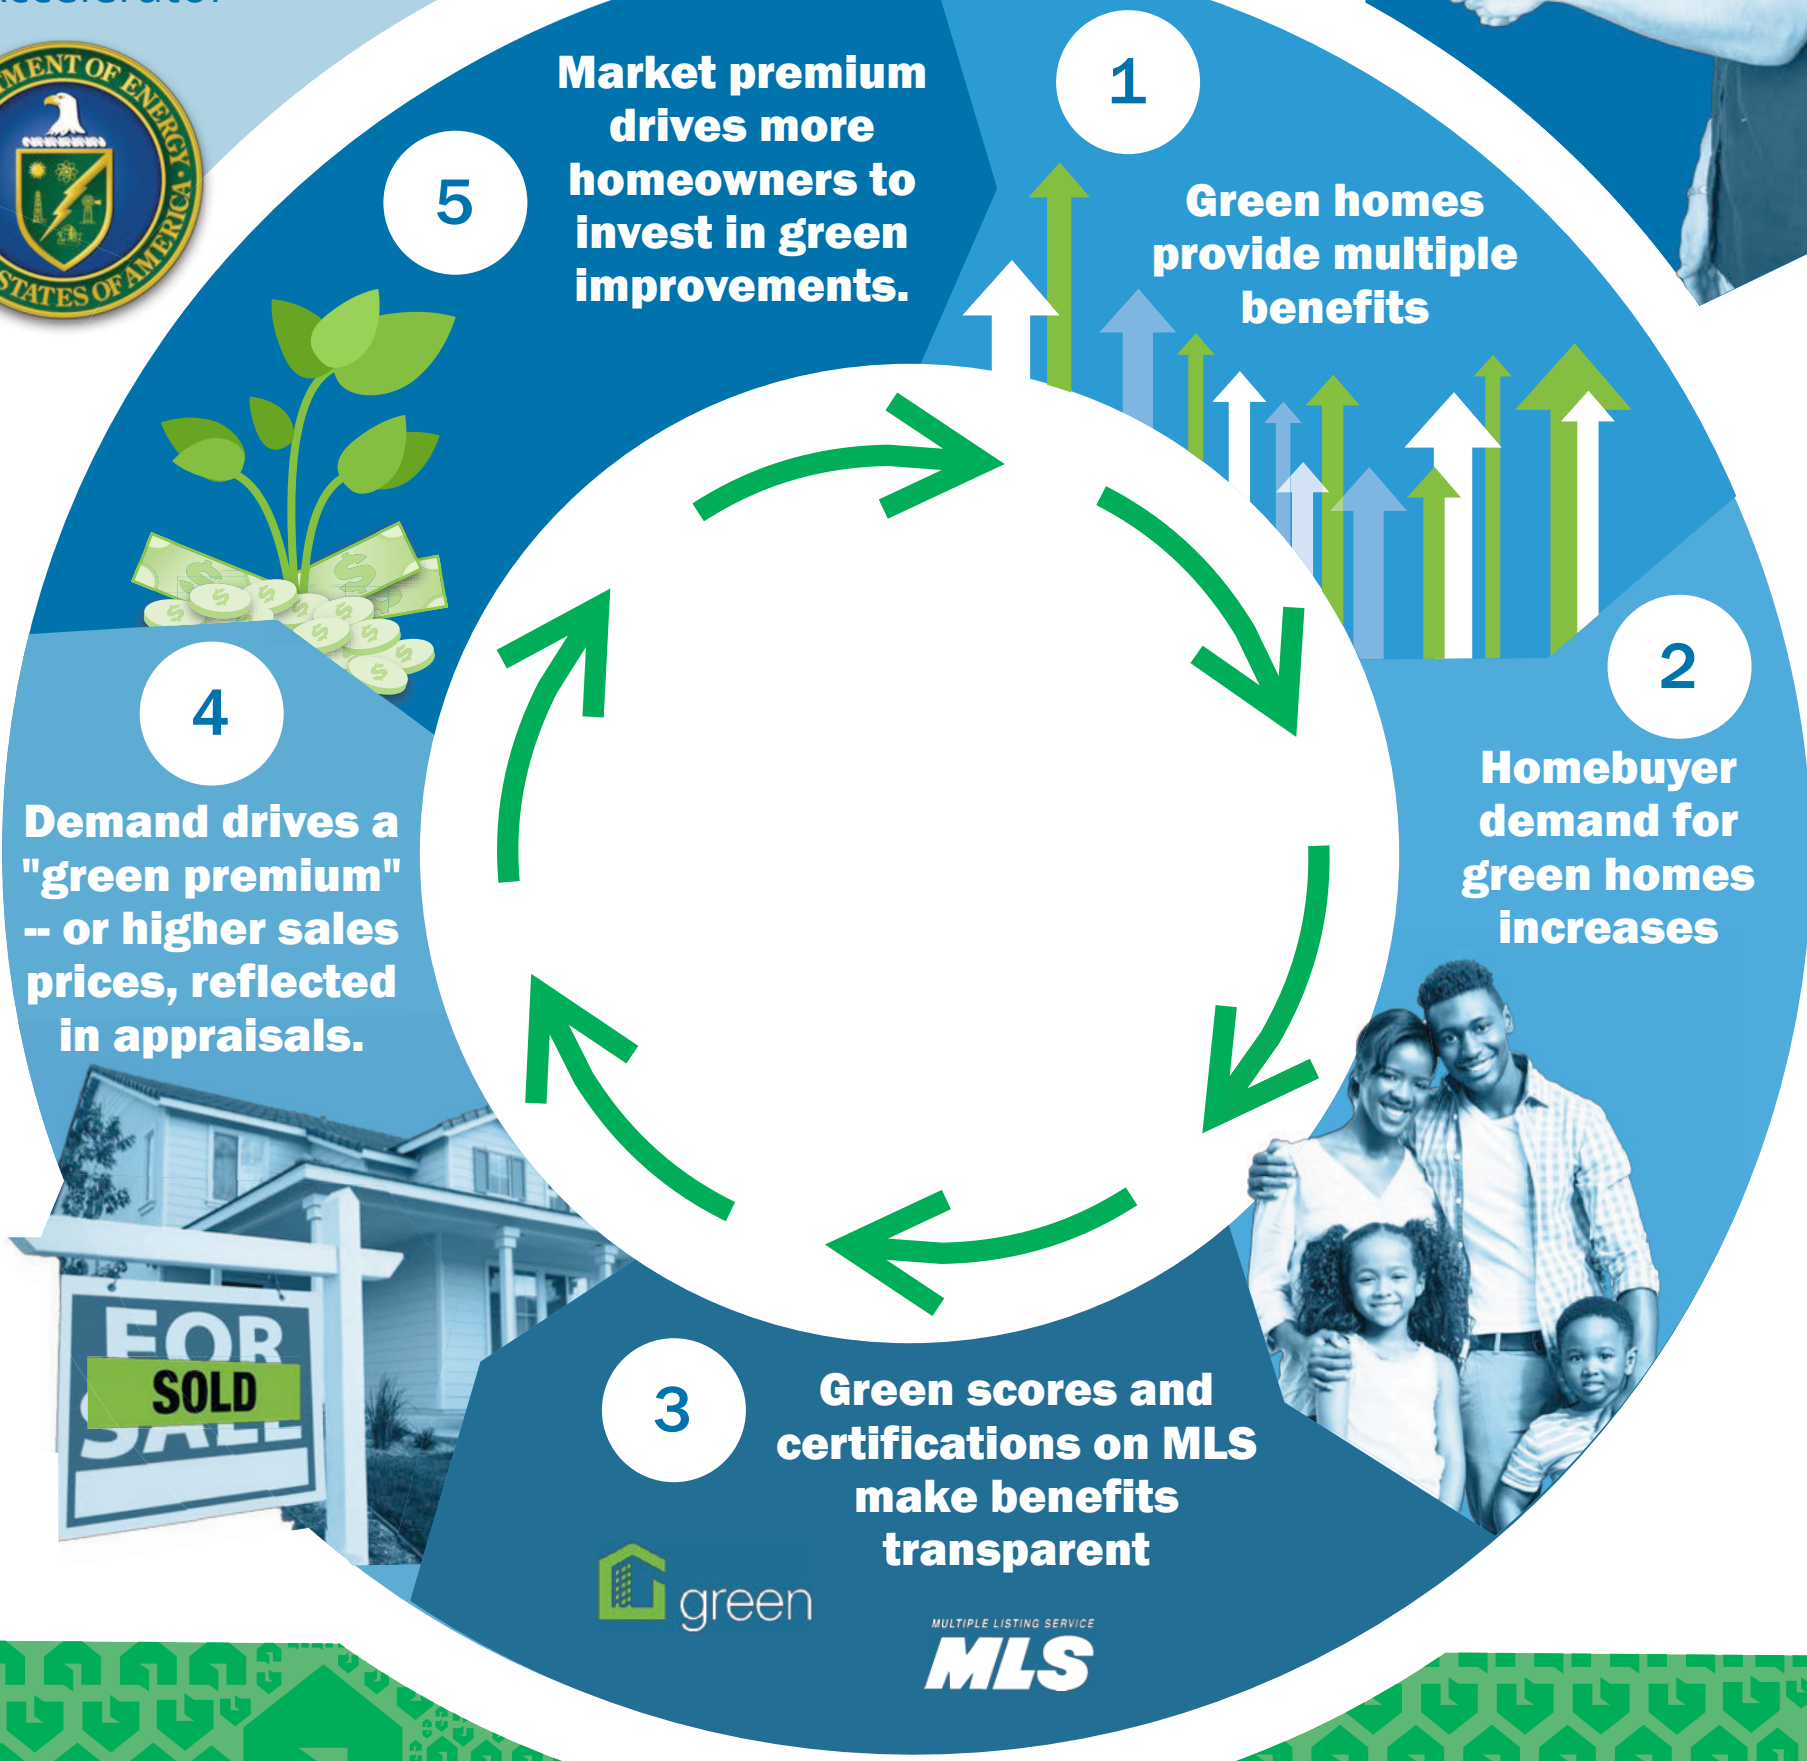

BIG joins U.S. Department of Energy's Home Energy Information Accelerator

444
